

Your pharmacy partner in expert service and care

Senior living community support

Pharmacy solutions delivered with care

As your partner, we'll work to provide value, resolve issues and cover the details so you can focus on giving the best care to your residents and patients as they age in place. We're here for you whenever you need us, and you can take comfort in knowing whenever questions or concerns arise, we're always accessible. Let us show you how our personal touch sets us apart.

Complete, customized care

You value the health of your residents and patients. And we value it too. With us, you can expect customized expertise and benefits, superior medication availability, comprehensive infusion therapy for acute care patients, advanced digital tools and guidance through state and federal regulations to keep your community compliant — all while helping to control costs. No matter the need, you can rely on us to deliver specialized, quality services so you can devote your time to providing excellent care.

Service that's always accessible

When you need immediate, expert service in geriatric care, we're always here for you. We understand the unique needs of the senior population and we understand your unique needs too. That's why we're committed to building strong, consultative partnerships with you, so that together, we can successfully support each member of your community.

Unique pharmacy benefits

We're a CVS Health[®] company, which means your residents and staff can take advantage of on-site flu vaccine clinics and vaccination services at MinuteClinic[®] locations to help them on their path to better health. For assisted living residents, we offer personalized care, service, support and value through our continued support from CVS Health. And CVS Pharmacy[®] now has more than 9,600 locations nationwide, which help maximize convenience for residents and staff.

Medication management

Whether residents rely on your experienced staff to help manage their medications or do it themselves, we offer medication services for your whole community through our long-term care and retail pharmacies. Together, we can make managing medications easier and more convenient for you, your staff, residents and their family members.

No matter the need, you can rely on us to deliver specialized, quality services so you can devote your time to providing excellent care.
